

BISP Certificate Program: Global Economies and Entrepreneurship

BISP Certificate Overview

The BISP Certificate in Global Economies and Entrepreneurship is intended for students interested in international business, economics, entrepreneurship, innovation, international careers, and other related areas.

In an increasingly interconnected world, it's essential to be prepared to understand and participate in a global economy. Studying abroad is a great opportunity to gain firsthand experience, and the BISP Certificate in Global Economies and Entrepreneurship offers students a comprehensive selection of interdisciplinary courses on a variety of global economic issues. While some courses may require a background in microeconomics and macroeconomics, it is possible to complete this certificate without any prior knowledge of economics.

"I love the Innovation and Entrepreneurship course! A lot of it has to do with the lecturer, Szonja [Ivester], because of her enthusiasm and honesty in class, but it's also because I feel like I grow and learn a lot that I wouldn't have anywhere else since The Bay Area really is where a lot of innovation takes place."

Hege Hansen, Political Science, University in Oslo

Learning Goals

By pursuing this BISP certificate, you will gain:

- UC Berkeley academic credit in a focused set of courses tailored to your interests in global economies and entrepreneurship.
- Faculty guidance on a culminating certificate project in which you will synthesize learnings and insight gained in your coursework and research at UC Berkeley.
- Research and analytical skills through approaching global economies and entrepreneurship from multiple perspectives.
- Communication and presentation skills through your participation in the BISP Certificate program and coursework.

Sample Courses

- Arts Entrepreneurship
- Challenge Lab
- Economy and Society
